Re: General Notice Letter and Demand for Payment of Response Costs for the Anaconda Aluminum Co Columbia Falls Reduction Plant Superfund Site in Flathead County, MT, SSID #A8-82

Dear Ms. Drazdys:

The U.S. Environmental Protection Agency (EPA or the Agency) is in receipt of Atlantic Richfield Company's November 10, 2014, and November 17, 2014, responses to the Agency's September 3, 2014, CERCLA Section 104(e) information request, which was sent to your company in connection with the above-referenced site (Site). Based on your company's responses and other available information, the EPA has determined that Atlantic Richfield Company may be responsible under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), commonly known as the federal "Superfund" law, for cleanup of the Site or costs the EPA has incurred in cleaning up the Site.

Explanation of Potential Liability

Based on available information, the EPA believes that Atlantic Richfield Company may be liable under section 107(a) of CERCLA with respect to the Site, as the previous owner and/or operator of the Site. Under CERCLA, specifically sections 106(a) and 107(a), potentially responsible parties (PRPs) may be required to perform cleanup actions to protect the public health, welfare, or the environment. PRPs may also be responsible for costs incurred by the EPA in cleaning up the Site, unless the PRP can show divisibility or any of the other statutory defenses. PRPs include current and former owners and operators of a site, as well as persons who arranged for treatment and/or disposal of any hazardous substances found at the site, and persons who accepted hazardous substances for transport and selected the site to which the hazardous substances were delivered.

To date, the EPA has performed Site investigations under the authority of the Superfund Program to gain a basic understanding of the risks posed to human health and the environment at the Site. Field work and sampling activities were conducted on surface and subsurface soil and sediment, surface water and groundwater during 2013 and 2014. The results of these activities are reported in the Site Reassessment Report dated April 4, 2014, which is publicly available on EPA's web site.

Invitation to Commence RI/FS Negotiations

The EPA encourages your company to voluntarily negotiate a consent order in which Atlantic Richfield Company agrees to perform a remedial investigation and feasibility study (RI/FS) under the EPA's oversight at the Site. A remedial investigation (RI) identifies site characteristics and defines the nature and extent of surface and subsurface soil and sediment, surface water and groundwater, and air contamination at or from the Site. A feasibility study (FS) evaluates different cleanup options for the Site. In an effort to facilitate the RI/FS negotiations and complete the RI/FS as quickly as possible, the EPA is enclosing for your consideration a proposed Administrative Settlement Agreement and Order on Consent and Statement of Work for the RI/FS as **Enclosures 1 and 2**. A copy of the Site map is enclosed as **Enclosure 3**.

Demand for Reimbursement of Costs

With this letter, the EPA demands that Atlantic Richfield Company reimburse the Agency for its costs incurred to date. In accordance with Section 104 of CERCLA, 42 U.S.C. § 9604, the EPA has already taken certain response actions and incurred certain costs in response to conditions at the Site. The EPA is seeking to recover its response costs and all the interest authorized to be recovered under Section 107(a) of CERCLA from Atlantic Richfield Company and other PRPs at the Site. The approximate total response costs identified through January 1, 2015 for the Site are **\$743,133.86**. Under Section 107(a) of CERCLA, the EPA hereby makes a demand for payment from Atlantic Richfield Company and other PRPs for the above amount plus all interest authorized to be recovered under Section 107(a). A summary of these costs is enclosed as **Enclosure 4**.

Some or all of the costs associated with this notice may be covered by current or past insurance policies issued to Atlantic Richfield Company. Most insurance policies will require that you timely notify your carrier(s) of a claim against your company. To evaluate whether you should notify your company's insurance carrier(s) of this demand, you may wish to review current and past policies, beginning with the date of Atlantic Richfield Company's first contact with the Anaconda Aluminum Co Columbia Falls Aluminum Reduction Plant, up to the present. Coverage depends on many factors, such as the language of the particular policy and state law.

In the event that Atlantic Richfield Company files for protection in a bankruptcy court, your company must include the EPA as creditor, because the EPA has a potential claim against the company. The EPA reserves the right to file a proof of claim or application for reimbursement of administrative expenses.

Information to Assist You

The EPA encourages communication between you, other PRPs, and the EPA at the Site. To assist you in your efforts to communicate, the following other PRP –Columbia Falls Aluminum Company, LLC– has received this notice:

Steve Wright
Environmental Manager
Columbia Falls Aluminum Company, LLC
2000 Aluminum Drive
Columbia Falls, MT 59912
Tel. 406-892-8211

Outside Counsel:
Andrew D. Otis, Esq.
Curtis, Mallet-Provost, Colt &
Mosle, LLP
101 Park Avenue
New York, NY 10178-0061
Tel. 212-696-6907

A copy of the documents supporting the proposal to list the Site on the National Priorities List has been placed at the ImaginEF Columbia Falls Library, 130 6th Street West, Columbia Falls, MT 59912 and is available to the public for inspection. The documents are also available for inspection by appointment at the Superfund Records Center, EPA Region 8, 1595 Wynkoop Street, Denver, CO 80202. Please call 303-312-6312 to make an appointment in advance of visiting the EPA's Superfund Records Center.

Also attached please find two EPA Region 8 guidance documents which pertain to data management (**Enclosure 5**) and spatial data (**Enclosure 6**).

Please give this matter your immediate attention. We understand that your company is represented by Mr. Adam Cohen of Davis, Graham & Stubbs, LLP and we have copied Mr. Cohen on this letter as a courtesy. If you have any questions regarding this letter, please contact Mark Chalfant, Enforcement Attorney, at 303-312-6177. Thank you for your prompt attention to this matter.

Sincerely,

Kelcey Lund, Director
RCRA/CERCLA Technical Enforcement Program
Office of Enforcement, Compliance,
and Environmental Justice

Andrea Madigan, Acting Director
Legal Enforcement Program
Office of Enforcement, Compliance,
and Environmental Justice
